

APPS FOR LEARNING

Kids ABC Letters Lite

Help your preschooler learn her letters with the collection of fun games included in this app. In one game, children create letters by sliding colorful puzzle pieces into place while in another, kids learn to recognize letters as they appear in words. Note that this "lite" version covers only letters A through H, and you must buy the complete version (\$3.99) for the entire alphabet.

Ages 2 & up

For Android, iPhone, iPad, iPod Touch

Funbrain Jr.

Numbers! Letters! Patterns! Yay! Preschoolers can dive into early learning with five games featuring quirky characters. In "Balloon Blowup," kids pop the balloon with the largest number set. In "Heat Wave," they connect pipes in alphabetical order to fill up a pool. In "Shape Shack," they click on the correct picture to complete a pattern.

Ages 2 & up

For iPhone, iPad, iPod Touch

Animal Pants

Do pandas wear pants? In this adorable app they do! Build your preschooler's matching skills by asking him to help the animals find their pants (in the right size, of course) in the beautifully illustrated nature scene. Along the way, your child can learn fun facts about the 12 different animals and where they live. The app is available in English, Spanish, French, and German and helps build early literacy skills across those languages.

Ages 2 & up

For iPad
